BLOOMING CREATIVE

Workshops & Events
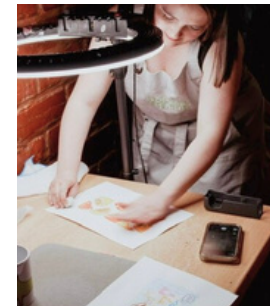

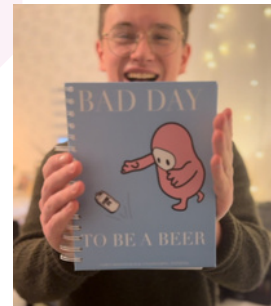

LEARN. GROW. CONNECT. CREATE.

WHAT WE DO

Blooming Creative is Edinburgh's pop-up craft workshop that comes to you! My passion is bringing people together for fun, hands-on experiences where you can learn a new skill and create something you're truly proud of.

The great thing is... I can come to you, whether it's your office for a team-building session, a hen party celebration, or a milestone birthday bash, I can bring the experience to your door. I can also help locate a local venue to hire should you wish to do it away from your office/home. Imagine designing personalised products through sublimation printing, crafting custom stickers, or hand-binding beautiful notebooks, all within the comfort of your chosen space. These workshops aren't just about making things; they're about creating memories and sharing laughter with those around you.

Beyond private events, I also love partnering with local businesses for collaborative, ticketed workshops open to everyone. It's a chance to meet new people, explore different creative avenues, and contribute to the vibrant Edinburgh community.

I can't wait to bring the Blooming Creative experience to you and make something amazing together!

A BIT ABOUT ME

I'm Jessica, a passionate event planner and the creator of Blooming Creative, a pop-up workshop experience designed to bring creativity right to your doorstep. With over eight years of experience bringing events to life, I'm now excited to bring that expertise to the world of creative workshops. Originally from Essex, I've found my home and inspiration here in Edinburgh these past three years.

My love for making things has always been a part of me - from transforming chocolate wrappers into art, to spending countless hours sketching in the Henry Moore gardens with my dad and sisters growing up. I was always drawn to the creative process. Although I may not have considered myself the most talented artist, those early experiences filled me with joy and a sense of connection.

That feeling led me to discover a community of fellow stationery enthusiasts, where I embraced digital art and design. I soon turned my ideas into stickers, notepads, and other goodies, sharing them at craft fairs and with my friends and family.

Creativity has always helped me at the hardest points in my life, keeps me grounded and quietens the noise in my head. Which is why I started Blooming Creative, in the hope that my workshops can allow people to feel connected through art and good company, the same way it does for me. I have found so much joy in sharing my passion with others and I'm excited to share this journey with you!
